

## BE Pressure Whirlaway

### 24" Rotary Surface Cleaner

A rugged machine, set on sturdy wheels and castors, it features a hover action, which is ideal for cleaning aggregate, stamped concrete and other flat surfaces. This flat surface cleaner prevents what is sometimes known as zebra striping or streaking, and increases your cleaning time by up to sixty percent over a regular nozzle. This model has water flow out the front away from the user and zero wall clearance cleaning

## Specification

Functional up to a 4000psi maximum pressure and a maximum flow of 30.4L/m

Effortlessly cleans flat surfaces

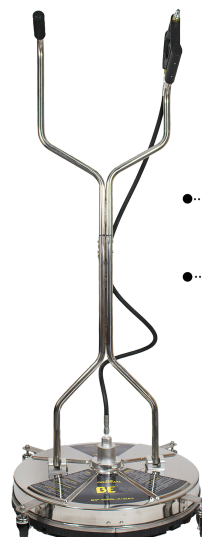

82° C Maximum Temperature

24" diameter head

Nylon brush skirt

Welded steel two arm rotary bar
